FOREWORD

Safety and Security plays an important role in facilitating operations at Kirinyaga university college (KyUC). In this context, security is viewed in terms of traditional and emerging crimes and threats.

The interplay of various social, economic and political factors makes society vulnerable to crime and security threats while safety remains central to progress.

The recognition that crime and security threats are real calls for a systematic approach to prevent lapses and in the unfortunate situation where threats are actualized, to reduce the magnitude of the impact.

This policy is meant to provide a practical guide on safety and security of students, staff, and visitors who interact with the university college.

KyUC is committed to the full implementation of this policy in terms of providing required resources in safety enhancement, security threat and risk analysis to reinforce our strength and to mitigate the vulnerabilities identified. Assigning responsibilities in the policy creates unambiguous protocol for smooth operation geared towards achieving maximum safety and security.

Prof. Mary Ndung'u
PRINCIPAL, KyUC

Safety and security policy

1.0 Introduction

Kirinyaga University College seeks to ensure safety and security of all staff, students and visitors while within the University College premises.

The University College is aware of safety and security issues within the institution and its immediate environs and shall maintain a friendly, safe and secure environment for its members.

To enhance safety and security, the University College has established a fully-fledged security department that is responsible for the effective operation and enforcement of the University College Safety and Security Policy.
